

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### *Monitoring Requirements Not Met for Village of Elberta*

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During November 1, 2016, to November 30, 2016, we did not monitor for chlorine residuals in our distribution system, and therefore, cannot be sure of the quality of your drinking water during that time. The violation **does not** pose a threat to the quality of the supply's water.

**What should I do?** There is nothing you need to do at this time. This is not an emergency. You do not need to boil water or use an alternative source of water at this time. Even though this is not an emergency, as our customers, you have a right to know what happened and what we are doing to correct the situation.

The table below lists the contaminants we did not properly test for, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date we collected follow-up samples.

Contaminants	Required Sampling Frequency	Number of Samples Taken	When all Samples Should Have Been Taken	Date Additional Samples were Collected
Chlorine Residual	1 sample every month	0	November 1, 2016 – November 30, 2016	December 7, 2016

**What happened? What is being done?** We inadvertently missed taking samples within this required sampling period. Our staff is making every effort to assure this does not happen again. Follow-up sample results indicate that our water meets health standards.

For more information, please contact Mr. Scott Little, Operator-In-Charge, at 231-632-1000.

Please share this information with all people who drink this water, especially those who may not have received this notice directly. You can do this by posting this notice in a public place or distributing copies by hand or mail.

More information about your drinking water is available from the U.S. Environmental Protection Agency Office of Water home page at: <http://www.epa.gov/safewater/dwinfo.htm>.

This notice is being sent to you by the Village of Elberta.

CERTIFICATION:

WSSN: 02080

I certify that this water supply has fully complied with the public notification regulations in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.
