Each committee shall maintain a written record of its meetings and shall deliver such record to the Clerk. The Clerk shall maintain a separate file for each committee. The record of each committee shall include at least the following: the date and place of the meeting, members attending, and any final recommendations that the committee has approved. Whenever the committee of the whole shall have completed its deliberations, a member shall move that the committee rise and report to the Council. The option to rise is always in

order and shall be decided without debate. Motions recommending action by the body shall take precedence in the same order as similar motions in regular meetings.

Section 6.0 EXECUTIVE SESSIONS

- 6.1 Procedure. The Council may meet in executive session, closed to the public, upon the motion of any member and concurrence of two-thirds of the members present. The vote shall be recorded in the minutes of the meeting at which the decision to hold an executive session was made.
- 6.2 Purposes. The Council shall hold executive sessions only for the following purposes:
- (a) To consider the dismissal, suspension, or disciplining of a public officer, employee, staff member, or individual; or to hear complaints or charges against such a person, but only when the subject of the proposed action or charges requests the meeting to be closed.
 - (b) To consider strategy connected with the negotiation of collective bargaining agreement.
 - (c) To consider the purchase or lease of real property prior to the time that an option to lease or purchase such real property is secured.
 - (d) To consult with legal counsel regarding trial or settlement strategy in connection with specific pending legislation but only when an open meeting would have a detrimental effect on the Council's litigating or settlement position.
 - (e) To review the specific contents of an application for employment to position and the applicant requests that the application remain confidential. Whenever the Council shall meet to interview an applicant it shall be in open session.
- 6.3 Minutes. At each executive session, the Clerk shall keep a separate record. This record of minutes shall not be disclosed to the public except upon court order. The Clerk may destroy said minutes after one year and one day have passed following the approval of the minutes of the meeting at which the Council approved the closed session.

Section 7.0 INTRODUCTION AND CONSIDERATION OF ORDINANCE

7.1 Introduction. Any Village member may introduce an ordinance at any regular meeting of the Village in the regular course of business.

7.2 Order for Consideration. The regular order for consideration of proposed ordinances shall be:

- (1) Introduction, first reading by title, and reference to the appropriate committee as determined by the President.
- (2) Written report by the committee considering the ordinance and placement on the agenda under pending business.
- (3) First reading and review by Council.
- (4) Review by Village attorney. Each ordinance shall be reviewed for comments, after being reviewed by the Council, by the Village attorney.
- (5) Final reading and vote. Final readings shall be in full unless otherwise ordered by a majority of those members present.

7.3 Committee Review. The President shall refer all proposed ordinances to an appropriate Council committee. The Committee shall review the proposal and make its written recommendation to the Council.

7.4 Review by Committee of the Whole. The Council, meeting as the committee of the whole, may consider each proposed ordinance and the committee's written recommendation thereon.

7.5 Final Adoption. Following the final reading, a motion to adopt shall be in order.

Ordinances which appropriate money, create or abolish an office, create or abolish a tax or an assessment,

create or abolish a street, alley or public ground or any vacation thereof, or which purchase or sell real estate or an interest in real estate or in any public improvement shall require a concurring vote of two-thirds of the Trustees elected. All other ordinances shall only call for a majority vote.

7.6 Publication and Effective Date. No ordinance shall be effective unless within fifteen days after the passage of an ordinance the ordinance or a synopsis of the ordinance shall be published in a newspaper circulated in the Village. An ordinance which imposes a penalty shall not take effect in less than twenty days after its date of publication.

7.7 Copies. The Clerk shall be responsible for reproducing proposed ordinances, after they have been introduced, in quantity sufficient to meet demand for copies.

7.8 Record of Ordinances. All ordinances, when regularly enacted, shall be recorded by the Clerk in a book to be called "The Record of Ordinances" and it shall be the duty of the President and Clerk to authenticate the same by their official signatures upon such record. A copy of the publication notice shall also be placed in "The Record of Ordinances".

Section 8.0 MOTIONS AND RESOLUTIONS

8.1 Statement by chair, written motions, and resolutions. No motion or resolution shall be adopted until the motion or resolution is stated by the person chairing the meeting. All motions except procedural motions and resolutions may be required to be in writing upon the demand of any member. A request to recess for the purpose of writing out a motion or resolution shall be in order. Each written motion or resolution in writing shall be read by the Village Clerk before being debated.

8.2 Order of Motions. Whenever a question is under debate, no motion shall be received except a motion to:

- (a) Fix the time to adjourn
- (b) Adjourn
- (c) Recess

- (d) Clear the floor
- (e) Vote immediately
- (f) Lay on the table
- (g) Postpone to a certain time
- (h) Commit or recommit
- (i) Amend

These motions shall take precedence in the order in which they are stated above.

8.3 Nondebatable motions. The motion to adjourn, to clear the floor, to recess, to lay on the table, to vote immediately, and all questions relating to the priority of business, shall be ordered and voted upon without debate.

8.4 Rules on procedural motions. A decision to lay on the table shall carry with it all questions to which it is attached, except in the case of laying an appeal on the chair.

- (a) A motion to vote immediately may be limited by the mover to one or more questions preceding the main question itself. A roll call vote may be demanded on the question to vote immediately. Whenever the question to vote immediately is ordered, any question, order, or appeal from the decision of the chair shall be decided without debate. If the Council rejects a motion to vote immediately, the consideration of the matter shall be resumed as if no motion therefor had been made.
- (b) A motion to reconsider shall be in order on any question the Council has decided, but no question shall be considered more than once. The motion to reconsider shall be in order, however, on the same day as the vote to be reconsidered was taken and in the next regular meeting following. The motion to reconsider shall be moved only by a member who voted with the majority on the vote to be reconsidered. A motion to reconsider a motion to amend shall not be in order if the main question has been voted upon. If the Council has adopted the question of reconsideration, however, motions to amend shall be in order.

A vote to postpone indefinitely shall not be reconsidered. It shall not be in order to take from the table a motion to reconsider, nor shall the vote whereby any motion to reconsider was laid on the table be reconsidered.

- (c) A Motion to clear the floor may be made by the chair at any time the chair believes that procedural matters have become sufficiently confused. If the motion to clear the floor is adopted, it shall clear the floor completely of all procedural motions and have the same effect as if all such matters have been withdrawn. The motion shall not be subject to debate nor, if adopted, subject to a motion to reconsider.
- (d) A motion to temporarily suspend the rules may be made at any time. By majority vote the board may temporarily suspend the rules to facilitate the accomplishment of any legal objective of the Council in a legal manner.
- (e) Any member of the Council may appeal from any decision of the chair. On all appeals the question shall be, "Shall the decision of the chair stand as the judgment of the Council?" Appeals shall be debatable except when the Council is under operation of the order to vote immediately or the decision appealed from relates to the priority of business. Any such appeal may be laid on the table, but it shall not carry with it the matter before the Council at the time such appeal is taken.
- (f) Any member of the Council may call for a division of any pending question. The question shall be divided if it contains propositions so distinct that, once removed, a substantive proposition shall remain.

Section 9.0 AMENDMENTS TO RULES AND REGULATIONS

- 9.1 These rules may be amended at any regular meeting by the majority vote of the Council members present, when placed on the agenda in accordance with these rules.

The fact that a fine has been scheduled for a particular violation shall not entitle any person to dispose of the violation at the Bureau. Nothing in this Chapter shall prevent or restrict the Village from issuing a municipal civil infraction citation for any violation or from prosecuting any violation in a court of competent jurisdiction. CHAPTER 1124 - PURCHASING, CONTRACTING AND
SELLING PROCEDURE

1. Purchasing Agent. The Village Clerk shall act as Purchasing Agent of the Village, unless another officer or employee shall be designated to act as Purchasing Agent by the President in writing filed with the Clerk. The Purchasing Agent, with the approval of the President, shall adopt any necessary rules respecting requisitions and purchase orders.

2. Purchases or Contracts under \$1000.00. Purchases of supplies, materials or equipment, the cost of which is less than \$1000.00, may be made in the open market but such purchases shall, except when the President shall determine that no advantage to the Village would result, be based on at least three (3) competitive bids and shall be awarded to the lowest responsible bidder meeting specifications. The Purchasing Agent may solicit bids verbally or by telephone, or may contact prospective bidders by written communication. A record shall be kept of all open market orders and the bids submitted thereon, which records shall be available for public inspection. Any or all bids may be rejected.

3. Purchases or Contracts over \$1000.00. Any expenditure for supplies, materials, equipment, construction project or contract obligating the Village, where the amount of the Village's obligation is in excess of \$1000.00 shall be governed by the provisions of this section.

- (a) Such expenditure shall be made the subject of a written contract. A purchase order shall be a sufficient written contract only in cases where the expenditure is in the usual and ordinary course of the Village's affairs and in no case shall it be sufficient for the construction of public works or the contracting for supplies or services over any period of time or where the quality of the goods or materials or the scope of the services bargained is not wholly standardized.
- (b) Notice inviting sealed bids shall be published in some newspaper of general circulation or posted in three (3) places in the Village, at least five (5) days before the final date for submitting bids thereon. Such notice shall give briefly the specifications of the supplies, materials or equipment or construction project or other matter to be contracted for, and shall state the amount of bond or other security, if any is to be required, to be given with the bid, and the amount of bond or other security to be given with the contract. The

notice shall state the time limit, the place of filing and the time of opening bids and shall also state that the right is reserved to reject any or all bids. Any other conditions of award of the contract shall also be stated in general terms.

- (c) The Purchasing Agent shall also solicit bids from a reasonable number of such qualified prospective bidders as are known to him by sending each a copy of the notice requesting bids.
- (d) The Council shall prescribe the amount of any security to be deposited with any bid which deposit shall be in the form of cash, certified or cashier's check or bond written by a surety company authorized to do business in the State of Michigan. The amount of such security shall be expressed in terms of percentage of the bid submitted. The Council shall also fix the amount of the performance bond and in the case of construction contracts, the amount of the labor and material bond to be required of the successful bidders.
- (e) Bids shall be opened in public at the time and place designated in the notice requesting bids in the presence of the President and either the Clerk or the Treasurer. The bids shall thereupon be carefully examined and tabulated and reported to the Council with the recommendation of the Purchasing Agent at the next Council meeting. After tabulation all bids may be inspected by the competing bidders.
- (f) When such bids are submitted to the Council, the contract to be executed shall also be submitted and if the Council shall find any of the bids to be satisfactory, it shall award the contract to the lowest responsible bidder, unless the Council shall determine that the public interest will be better served by accepting a higher bid, and shall authorize execution of the contract upon execution of the contract by the successful bidder and the filing of any bonds which may have been required. Such award may be by resolution or ordinance. The Council shall have the right to reject any or all bids and to waive irregularities in bidding and to accept bids which do not conform in every respect to the bidding requirements.
- (g) At the time the contract is executed by him, the contractor shall file a bond executed by a surety company authorized to do business in the State of Michigan, to the Village, conditioned upon the performance of said contract and saving the Village harmless from all losses or damage caused to any person or property by reason of any careless-

ness or negligence by the contractor and from all expense of inspection, engineering and otherwise, caused by the delay in the completion of any improvement and further conditioned to pay all laborers, mechanics, sub-contractors and material men as well as all just debts, dues and demands incurred in the performance of such work.

- (h) All bids, deposits of cash or certified or cashier's checks may be retained until the contract is awarded and signed. If any successful bidder fails or refuses to enter into the contract awarded to him within five (5) days after the same has been awarded, or file any bond required within the same time, the deposit accompanying his bid shall be forfeited to the Village, and the Council, may, in its discretion, award the contract to the next low responsible bidder unless the Council shall determine that the public interest will be better served by accepting a higher bid, or said contract may be re-advertised.

4. Exceptions to Competitive Bidding. Subject to prior approval of the Council, competitive bidding shall not be required in the following cases:

- (a) Where the product or material contracted for is not competitive in nature, and the Purchasing Agent so certifies to the Council in writing.
- (b) In the employment of professional services;
- (c) Where the Council shall determine that the public interest will be best served by joint purchase with, or purchase from, another unit of government.

5. Sale of Property. Whenever any personal property belonging to the Village is no longer needed for corporate or public purposes, the same may be offered for sale on approval by the Council. Personal property not exceeding one thousand (\$1000.00) dollars in value may be sold for cash by the Purchasing Agent upon approval of the President, after receiving quotations or competitive bids therefor for the best price obtainable. Personal property with a value in excess of one thousand (\$1000.00) dollars may be sold after advertising and receiving competitive bids, as provided in section 3 and after approval of the sale has been given by the Council. In the purchase of automotive equipment, bidders may include in their bid, a trade-in allowance for old equipment and such equipment may be disposed of in trade without further bidding requirements.

6. Sale of Real Estate. Real estate may be purchased or sold or leased when not required for corporate purposes, upon the affirmative vote of two-thirds of the members elect

of the Council. Sales of real estate shall be subject to the requirements of section 2 of this Chapter. The notice inviting bids shall contain a brief description of the property in addition to the information specified in section 2 (b).

**STATE OF MICHIGAN
91ST LEGISLATURE
REGULAR SESSION OF 2001**

Introduced by Senators Johnson, Hammerstrom, Dunaskiss, Gougeon, Shugars, North and Bullard

ENROLLED SENATE BILL No. 109

AN ACT to amend 1964 PA 170, entitled "An act to make uniform the liability of municipal corporations, political subdivisions, and the state, its agencies and departments, officers, employees, and volunteers thereof, and members of certain boards, councils, and task forces when engaged in the exercise or discharge of a governmental function, for injuries to property and persons; to define and limit this liability; to define and limit the liability of the state when engaged in a proprietary function; to authorize the purchase of liability insurance to protect against loss arising out of this liability; to provide for defending certain claims made against public officers and paying damages sought or awarded against them; to provide for the legal defense of public officers and employees; to provide for reimbursement of public officers and employees for certain legal expenses; and to repeal certain acts and parts of acts," (MCL 691.1401 to 691.1415) by adding sections 16, 17, 18, and 19.

The People of the State of Michigan enact:

Sec. 16. As used in this section and sections 17 to 19:

- (a) "Affected property" means real property affected by a sewage disposal system event.
- (b) "Appropriate governmental agency" means a governmental agency that, at the time of a sewage disposal system event, owned or operated, or directly or indirectly discharged into, the portion of the sewage disposal system that allegedly caused damage or physical injury.
- (c) "Claimant" means a property owner that believes that a sewage disposal system event caused damage to the owner's property, a physically injured individual who believes that a sewage disposal system event caused the physical injury, or a person making a claim on behalf of a property owner or physically injured individual. Claimant includes a person that is subrogated to a claim of a property owner or physically injured individual described in this subdivision.
- (d) "Contacting agency" means any of the following within a governmental agency:
 - (i) The clerk of the governmental agency.
 - (ii) If the governmental agency has no clerk, an individual who may lawfully be served with civil process directed against the governmental agency.
 - (iii) Any other individual, agency, authority, department, district, or office authorized by the governmental agency to receive notice under section 19, including, but not limited to, an agency, authority, department, district, or office

responsible for the operation of the sewage disposal system, such as a sewer department, water department, or department of public works.

(e) "Defect" means a construction, design, maintenance, operation, or repair defect.

(f) "Noneconomic damages" includes, but is not limited to, pain, suffering, inconvenience, physical impairment, disfigurement, mental anguish, emotional distress, loss of society and companionship, loss of consortium, injury to reputation, humiliation, and other nonpecuniary damages.

(g) "Person" means an individual, partnership, association, corporation, other legal entity, or a political subdivision.

(h) "Serious impairment of body function" means that term as defined in section 3135 of the insurance code of 1956, 1956 PA 218, MCL 500.3135.

(i) "Service lead" means an instrumentality that connects an affected property, including a structure, fixture, or improvement on the property, to the sewage disposal system and that is neither owned nor maintained by a governmental agency.

(j) "Sewage disposal system" means all interceptor sewers, storm sewers, sanitary sewers, combined sanitary and storm sewers, sewage treatment plants, and all other plants, works, instrumentalities, and properties used or useful in connection with the collection, treatment, and disposal of sewage and industrial wastes, and includes a storm water drain system under the jurisdiction and control of a governmental agency.

(k) "Sewage disposal system event" or "event" means the overflow or backup of a sewage disposal system onto real property. An overflow or backup is not a sewage disposal system event if any of the following was a substantial proximate cause of the overflow or backup:

(i) An obstruction in a service lead that was not caused by a governmental agency.

(ii) A connection to the sewage disposal system on the affected property, including, but not limited to, a sump system, building drain, surface drain, gutter, or downspout.

(iii) An act of war, whether the war is declared or undeclared, or an act of terrorism.

(l) "Substantial proximate cause" means a proximate cause that was 50% or more of the cause of the event and the property damage or physical injury.

Sec. 17. (1) To afford property owners, individuals, and governmental agencies greater efficiency, certainty, and consistency in the provision of relief for damages or physical injuries caused by a sewage disposal system event, a claimant and a governmental agency subject to a claim shall comply with this section and the procedures in sections 18 and 19.

(2) A governmental agency is immune from tort liability for the overflow or backup of a sewage disposal system unless the overflow or backup is a sewage disposal system event and the governmental agency is an appropriate governmental agency. Sections 16 to 19 abrogate common law exceptions, if any, to immunity for the overflow or backup of a sewage disposal system and provide the sole remedy for obtaining any form of relief for damages or physical injuries caused by a sewage disposal system event regardless of the legal theory.

(3) If a claimant, including a claimant seeking noneconomic damages, believes that an event caused property damage or physical injury, the claimant may seek compensation for the property damage or physical injury from a governmental agency if the claimant shows that all of the following existed at the time of the event:

(a) The governmental agency was an appropriate governmental agency.

(b) The sewage disposal system had a defect.

(c) The governmental agency knew, or in the exercise of reasonable diligence should have known, about the defect.

(d) The governmental agency, having the legal authority to do so, failed to take reasonable steps in a reasonable amount of time to repair, correct, or remedy the defect.

(e) The defect was a substantial proximate cause of the event and the property damage or physical injury.

(4) In addition to the requirements of subsection (3), to obtain compensation for property damage or physical injury from a governmental agency, a claimant must show both of the following:

(a) If any of the damaged property is personal property, reasonable proof of ownership and the value of the damaged personal property. Reasonable proof may include testimony or records documenting the ownership, purchase price, or value of the property, or photographic or similar evidence showing the value of the property.

(b) The claimant complied with section 19.

Sec. 18. (1) Except as provided in subsection (2), economic damages are the only compensation for a claim under section 17. Except as provided in subsection (2), a court shall not award and a governmental agency shall not pay noneconomic damages as compensation for an event.

(2) A governmental agency remains subject to tort liability for noneconomic damages caused by an event only if the claimant or the individual on whose behalf the claimant is making the claim has suffered death, serious impairment of body function, or permanent serious disfigurement.

(3) In an action for noneconomic damages under section 17, the issues of whether a claimant or the individual on whose behalf the claimant is making the claim has suffered serious impairment of body function or permanent serious disfigurement are questions of law for the court if the court finds either of the following:

(a) There is no factual dispute concerning the nature and extent of the claimant's or the individual's injuries.

(b) There is a factual dispute concerning the nature and extent of the claimant's or the individual's injuries, but the dispute is not material to determining whether the claimant or the individual has suffered a serious impairment of body function or permanent serious disfigurement.

(4) Unless this act provides otherwise, a party to a civil action brought under section 17 has all applicable common law and statutory defenses ordinarily available in civil actions, and is entitled to all rights and procedures available under the Michigan court rules.

Sec. 19. (1) Except as provided in subsections (3) and (7), a claimant is not entitled to compensation under section 17 unless the claimant notifies the governmental agency of a claim of damage or physical injury, in writing, within 45 days after the date the damage or physical injury was discovered, or in the exercise of reasonable diligence should have been discovered. The written notice under this subsection shall contain the content required by subsection (2)(c) and shall be sent to the individual within the governmental agency designated in subsection (2)(b). To facilitate compliance with this section, a governmental agency owning or operating a sewage disposal system shall make available public information about the provision of notice under this section.

(2) If a person who owns or occupies affected property notifies a contacting agency orally or in writing of an event before providing a notice of a claim that complies with subsection (1), the contacting agency shall provide the person with all of the following information in writing:

(a) A sufficiently detailed explanation of the notice requirements of subsection (1) to allow a claimant to comply with the requirements.

(b) The name and address of the individual within the governmental agency to whom a claimant must send written notice under subsection (1).

(c) The required content of the written notice under subsection (1), which is limited to the claimant's name, address, and telephone number, the address of the affected property, the date of discovery of any property damages or physical injuries, and a brief description of the claim.

(3) A claimant's failure to comply with the notice requirements of subsection (1) does not bar the claimant from bringing a civil action under section 17 against a governmental agency notified under subsection (2) if the claimant can show both of the following:

(a) The claimant notified the contacting agency under subsection (2) during the period for giving notice under subsection (1).

(b) The claimant's failure to comply with the notice requirements of subsection (1) resulted from the contacting agency's failure to comply with subsection (2).

(4) If a governmental agency that is notified of a claim under subsection (1) believes that a different or additional governmental agency may be responsible for the claimed property damages or physical injuries, the governmental agency shall notify the contacting agency of each additional or different governmental agency of that fact, in writing, within 15 business days after the date the governmental agency receives the claimant's notice under subsection (1). This subsection is intended to allow a different or additional governmental agency to inspect a claimant's property or investigate a claimant's physical injury before litigation. Failure by a governmental agency to provide notice under this subsection to a different or additional governmental agency does not bar a civil action by the governmental agency against the different or additional governmental agency.

(5) If a governmental agency receives a notice from a claimant or a different or additional governmental agency that complies with this section, the governmental agency receiving notice may inspect the damaged property or investigate the physical injury. A claimant or the owner or occupant of affected property shall not unreasonably refuse to allow a governmental agency subject to a claim to inspect damaged property or investigate a physical injury. This subsection does not prohibit a governmental agency from subsequently inspecting damaged property or investigating a physical injury during a civil action brought under section 17.

(6) If a governmental agency notified of a claim under subsection (1) and a claimant do not reach an agreement on the amount of compensation for the property damage or physical injury within 45 days after the receipt of notice under this section, the claimant may institute a civil action. A civil action shall not be commenced under section 17 until after that 45 days.

(7) This section does not apply to claims for noneconomic damages made under section 17.

This act is ordered to take immediate effect.

Motion by Gatrell supported by Acre to hold a special meeting to review the Stenberg request. Yeas - 6.

Mr. Berlin asked if it would be fair to set the special meeting now, so that all those present would have notice. Mr. Stenberg stated he would like to point out that the notice that was published stated a meeting would follow for the review. Mr. Berlin stated the public hearing has been held but if the time could be set now that would give Mr. Stenberg and the public notice to attend and there will be an eighteen hour notice for the special meeting.

Motion by Acre supported by Gatrell to set a ZBA meeting on the Stenberg request for a dimensional variance, a site plan review and review of the special use on November 30, 1995 at 7:00 p.m. Yeas - 6.

Mr. Berlin stated this was done because of ten other items on the agenda. Mr. Stenberg thanked the Council for their consideration.

2. D/A AARR PROPERTY.

Mr. Gilbert stated there were some letters in their packets. No action taken.

3. D/A FEES FOR WATER/SEWER HOOK-UP APPLICATIONS.

Mr. Gilbert asked the Clerk what the difficulties were on this. The Clerk stated that according to the ordinance there fees that can be charged and no fees were ever established and so two forms were drafted for review; one for separate fees for materials, equipment, labor and the benefit fee or one combined fee of \$500.00 for time, equipment, and materials or whichever is larger plus the benefit fee.

Motion by Acre supported by Gatrell to approve the combined fee of \$500.00 for time, equipment and labor or whichever is larger plus the benefit fee. Yeas - 6.

4. D/A PREPAY BILLS FOR DECEMBER.

The Clerk stated that because of the way the holidays are falling this year the office will be closed the day after the regular meeting in December and the Treasurer would like to prepare all the bills for the computer and print them to be sent in the mail after the holidays and if there are any the council does not approve, those checks would be voided.

Motion by Kirbach supported by Gatrell to permit the Treasurer to prepay all the bills for December. Yeas - 6.

18. SCOUT BUILDING.

Parsons asked Charles Thompson if they had finished work on the scout building because it doesn't look any better. Thompson replied "no". Parsons stated she did not understand why they did not scrape and painted over peeling wood. The area is a park and yet there are cars parked every night and loud music. Thompson stated that because it's a park, apparently they aren't wanted there. If that is the case, after putting in 100 hours of work, and the building is taken away from them, he is done. They are still a long way from being finished. Thompson stated he could put an end to the music...that is no problem and apologized if she was disrupted. Gilbert stated it is an old building and can't be changed overnight.

19. WATER/SEWER HOOK UP FEES.

Motion by Kidder supported by McClellan to establish a charge for all property owners requesting upgrading of water and or sewer system to be set at the costs of time, equipment and materials effective 08/20/92. Yeas - 6. Nays - 0.

An annual review will be performed on a fiscal year basis to determine the actual cost of water, sewer and garbage services, including bond retirement, maintenance of an operational and maintenance fund, and a replacement fund. A review of this material by the Superintendent of the Department, Village Treasurer and the Village Clerk will establish whether revenue receipts are sufficient to cover costs and funds, and also whether the distribution of charges is equitable.

CHAPTER 4001 - STREET OPENINGS AND OBSTRUCTIONS

1. Definitions. Unless the context specifically indicates otherwise, the following definitions shall apply in the interpretation of this Chapter:

- (b) "Superintendent" shall mean the Superintendent of Public Works of the Village.

2. Damage and Obstruction Prohibited. No person shall make any excavation in, or cause any damage to any street in the Village, except under the conditions and in the manner permitted in this Chapter. No person shall place any article, thing or obstruction in any street, except under the conditions and in the manner permitted in this Chapter, but this provision shall not be deemed to prohibit such temporary obstructions as may be incidental to the expeditious movement of articles and things to and from abutting premises, nor to the lawful parking of vehicles within the part of the street reserved for vehicular traffic.

3. Permits and Bonds. Where permits are authorized in this Chapter, they shall be obtained upon application to the Superintendent, upon such forms as he shall prescribe, and there shall be a charge of one (\$1.00) dollar for each such permit. Such permit shall be revocable by the Superintendent for failure to comply with this Chapter, rules and regulations adopted pursuant hereto, and the lawful orders of the Superintendent or his duly authorized representative, and shall be valid only for the period of time endorsed thereon. Application for a permit under the provisions of this Chapter shall be deemed an agreement of the applicant to promptly complete the work permitted, observe all pertinent laws and regulations of the Village in connection therewith, repair all damage done to the street surface and installations on, over or within such street, including trees, and protect and save harmless the Village from all damages or actions at law that may arise or may be brought on account of injury to persons or property resulting from the work done under the permit or in connection therewith. Where liability insurance policies are required to be filed in making application for a permit, they shall be in not less than the following amounts, except as otherwise specified in this Chapter:

Where cash deposits are required with the application for any permit hereunder, such deposit shall be in the amount of twenty-five (\$25.00) dollars, except as otherwise specified in this Chapter, and such deposit shall be used to defray all expenses to the Village arising out of the granting of the permit and work done under the permit or in connection therewith. Three (3) months after completion of the work done under the permit, any balance of such cash deposit unexpended, shall be refunded. In any case where the deposit does not cover all costs and expenses of the Village, the deficit shall be paid by the applicant.

4. Street Openings. No person shall make any excavation or opening in or under any street without first obtaining a written permit from the Superintendent. No permit shall be granted until the applicant shall post a cash deposit and file a liability insurance policy as required by section 3.

estate, shall do so only on condition that such maintenance shall be considered as an agreement on his part with the Village to keep the same and the covers thereof, and any gas and electric boxes and tubes thereon, in good repair and condition at all times during his ownership or control thereof, and to indemnify and save harmless the Village against all damages or actions at law that may arise or be brought by reasons of such excavation or structure being under, over, in or upon the street, or being unfastened, out of repair or defective during such ownership or control.

CURB CUTS

9. Curb Cuts. No opening in or through any curb of any street shall be made without first obtaining a written permit from the Superintendent. Curb cuts and sidewalk driveway crossings to provide access to private property shall comply with the following:

HOUSEMOVING

14. Housemoving. No person shall move, transport or convey any building or other similar bulky or heavy object, including machinery, truck and trailer, larger in width than fourteen (14) feet, into, across or along any street, alley or other public place in the Village without first obtaining a permit from the Superintendent. The procedure for collection of such expenses shall be as prescribed in sections 19, 20 and 21 of Chapter VIII of the Charter.

16. Temporary Street Closings. The Superintendent shall have authority to temporarily close any street, or portion thereof, when he shall deem such street to be unsafe or temporarily unsuitable for use for any reason. He shall cause suitable barriers and signs to be erected on said street, indicating that the same is closed to public travel. When any street or portion thereof shall have been closed to

public travel, no person shall drive any vehicle upon or over said street except as the same may be necessary incidentally to any street repair or construction work being done in the area closed to public travel. No person shall move or interfere with any sign or barrier erected pursuant to this section with out authority from the Superintendent.

The fee for such permit shall be one (1) cent per square foot and a minimum of one (\$1.00) dollar.

Such stop order shall be effective until the next regular meeting of the Village Council, and if confirmed by the Council, at its next regular meeting, such stop order shall be permanent, and shall constitute a revocation of the permit.

6. Approval of Specifications. The line, grade, slope and width of sidewalks, and specifications as to materials and manner of construction not in conflict with this Chapter, shall be established by the Superintendent, and where, under the following sections of this Chapter, the Council orders

7. Ordering Construction. The Village Council may, by resolution, require the owners of lots and premises to build sidewalks in the public streets adjacent to and abutting upon such lots and premises. When such resolution shall be adopted, the Superintendent shall give notice thereof, in accordance with section 12 of Chapter 1001 of this Code, to the owner of such lot or premises requiring him to construct or rebuild such sidewalk within twenty (20) days from the date of such notice.

8. Construction by Village. If the owner of any lot or premises shall fail to build any particular sidewalk as described in said notice, and within the time and in the manner required thereby, the Superintendent is hereby authorized and required, immediately after the expiration of the time limited for the construction or rebuilding by the owner, to cause such sidewalk to be constructed and the expense thereof shall be charged to such premises and the owner thereof, and collected as provided in section 10 of Chapter VII of the Charter.

9. Sidewalk Maintenance. No person shall permit any sidewalk within the Village which adjoins property owned by him, to fall into a state of disrepair or to be unsafe.

10. Sidewalk Repair. Whenever the Superintendent shall determine that a sidewalk is unsafe for use, notice may be given to the owner of the lot or premises adjacent to and abutting upon said sidewalk of such determination which notice shall be given in accordance with section 12 of Chapter 1001 of this Code. Thereafter, it shall be the duty of the owner to place said sidewalk in a safe condition. Such notice shall specify a reasonable time, not less than seven (7) days, within which such work shall be commenced, and shall further provide that the work shall be completed with due diligence. If the owner of such lot or premises shall refuse or neglect to repair said sidewalk within the time limited therefor, or in a manner otherwise than in accordance with this Chapter, the Superintendent shall have said sidewalk repaired. The cost of repairs hereunder shall be charged against the premises, and shall be collected as provided in section 10 of Chapter VII of the Charter.

11. Sidewalks to be Cleared. The occupant of every lot or premises adjoining any street, or the owner of such lot or premises, if the same are not occupied, shall clear all ice and snow from sidewalks adjoining such lot or premises within the time herein required. When any snow shall fall or drift upon any sidewalk during the nighttime, such snow shall be

cleared from the sidewalks by 12:00 noon. Snow falling or accumulating during the day shall be cleared from the sidewalks by 12:00 noon of the day following.

12. Failure to Clear. If any occupant or owner shall neglect or fail to clear ice or snow from the sidewalk adjoining his premises within the time limited, or shall otherwise permit ice or snow to accumulate on such sidewalk, he shall be guilty of a violation of this Chapter and in addition, the Superintendent may cause the same to be cleared and the expense of removal shall be collectable as provided in section 10 of Chapter VII of the Charter.

Page 2, Regular Meeting of the Elberta Village Council on October 18, 1979.

Motion by Bower supported by Soderquist that the following be adopted:
Resolved that the Village of Elberta adopt the Michigan Motor Vehicle Code for townships and villages in accordance with Public Act No. 514, House bill 512, and any local ordinance regulating the parking and/or use of a motor vehicle shall be in accordance with the same. 6 ayes. No nays. Motion carried.

(According to Police Chief Walter Peltier, the above is a follow up on a State law already in effect. The above changes most traffic violations from a criminal misdemeanor to a civil infraction, but does not change the fine or point system. The only major change that takes effect is that there is no jury trial available on a civil infraction).

Motion by Soderquist supported by Bower that the meeting be adjourned.

ORV Rules Updated

Beginning last Jan. 4, 1990, use of off-road vehicles (ORV) on state-owned lands is restricted to roads and designated and marked trails. ORVs can no longer be used on unmarked, visible trails.

Amendments to the state ORV law last spring include a new operator age restriction (at least 16 years of age), new safety requirements, and a new noise emissions testing procedure. For details, contact **Bob Tyler**, Department of Natural Resources (DNR) Forest Management Division, 517-373-1275.

Effective April 1, 1991, the DNR will license ORVs annually. The Department of State will require titles for all ORVs.

The DNR has designated and marked 1,525 miles of trails and two use areas for ORVs. Of these, 501 miles of trails are in the Upper Peninsula and 1,024 miles are in the northern half of the Lower Peninsula. The use areas are also located in the latter region — at Silver Lake State Park, a 200-acre scramble area managed by DNR Parks Division, and the St. Helen's Motorsport Area, a 1,240-acre cross-country use area just east of St. Helen managed by the Forest Management Division.

ORDINANCE NO. 23

THE VILLAGE OF ELBERTA ORDAINS:

The following section is added to the Village Zoning Ordinance:

Section 6.8 Deep Water Port District "PD":

a) **Intent:** To establish an area for residential and commercial land uses in the Village, that recognizes the unique features of the Elberta Deep Water Port, whereby flexibility is granted from the strict application of the zoning district requirements. This will allow the property owner to propose a unified development plan for a single property, or group of properties under a single ownership, which combines commercial and residential uses at densities consistent with R-1 Zoning District, allowing a development plan which maximizes the recreational opportunities of the Elberta Deep Water Port and provides the opportunity for public access to the waters edge.

It is the intent of the Village of Elberta to require all proposed developments within the PD Zoning District to conform to site plan review provisions, Section 7.2 of Article VII of this ordinance concerning site plan review. Before submission of the site plan to the Village Council, as provided in Article VII, the site plan shall be reviewed by the Planning Commission, which shall recommend disapproval, approval, or approval with modifications, to the Village Council.

b) **Permitted Uses:**

- 1) A single building may be erected, altered or used, and a lot may be occupied or used for any permitted use specified in the R-1 Residential Zoning Districts or the Commercial Zoning District.
- 2) Deep draft marine vessel operations and support facilities which are recreational or commercial tourism based in nature.

c) **Special Uses:** All special uses specified in the R-1 Residential Zoning District and Commercial Zoning District of this Ordinance. Additional uses which may be authorized by issuance of a Special Use Permit include:

- 1) Marinas and boat liveries, whether commercial or recreational in nature, and facilities designed to retail marine pleasure craft.
- 2) Marine vessel storage or repair facilities within completely enclosed buildings.
- 3) Marine vessel sales outlets.
- 4) Hotels and Motels.
- 5) Outdoor recreational or public amusement facilities, including tourism facilities, historical displays and other facilities.

water pollution, wetlands, coastal sand dunes, and floodplain. Evidence shall be provided in the form of approved permits from all local, state and federal responsible agencies prior to the issuance of land use permits by the Village for buildings and structures for the proposed project.

There shall be no minimum lot size requirements for Deep Water Port District uses. Upon recommendation of the Planning Commission, the Village Council may approve a landscaping plan prior to the issuance of a land use permit for the building and/or structures.

There shall be no specific maximum density for development within the Deep Water Port District. Commercial space usage shall be limited to no more than 50% of the total building area within a mixed use building or structure housing both residential and/or over night rental accommodations and allowable uses specified in the Commercial District.

The maximum building height shall be 35 feet. The front yard and side yard set back requirement shall be those of the Residential R-1 District, however, upon recommendation of the Planning Commission, the Village Council may waive the height restriction where a development proposal contains an approved fire suppression system and is constructed with approved fire fighting access ways as determined by the State Fire Marshall in accordance with the Village and State of Michigan Building Construction and Fire Codes. The burden of demonstrating conformance with these provisions shall be born by the applicant for the special use approval.

On site parking spaces shall be provided according to the following schedule, unless otherwise required by the Planning Commission and the Village Council. Where an applicant proposes multiple uses within a proposed unified development project, the number of parking spaces required shall be determined by tabulation of all parking required by the number of units and square footage proposed in the development and the following schedule of required parking spaces.

- Two parking spaces for each single family detached living unit.
 - One and one-half parking spaces for each multi-family living unit.
 - One parking space for each over night rental sleeping accommodation and each worker for hotels and other like accommodations.
 - One parking space for each 250 square feet of building floor area for all commercial uses.
- Where commercial uses require off street loading/unloading services, additional parking area shall be provided to accommodate the services.

e) **Saving Clause.** The various parts, sections and clauses of this Ordinance are hereby declared to be severable. If any part, sentence, paragraph, section or clause is adjudged unconstitutional, invalid, void or unenforceable, for any reason, by a court of competent jurisdiction, the remaining portions of this Ordinance shall remain in full force and effect.
