### **Income Survey (MHI) — Please Complete and Return**

The Village of Elberta is considering improvements to the sanitary sewer system to ensure reliable, high-quality service. To pursue potential federal loans and grants for these improvements, the Village must determine the **median household income (MHI)** of the service area.

**This step is critical.** Strong participation helps improve eligibility for financial assistance, which can help **reduce pressure for utility rate increases.**

**Confidentiality:** Your response will be held with the strictest confidence. The survey is processed by a **third party (Great Lakes Community Partnership / GLCAP)** and will be used only to calculate an average income for the Village/service area.

**What to do:** Complete the survey you received and return it in the provided envelope as soon as possible.
