

Village of Elberta

151 Pearson Street, P.O. Box 8 Elberta, MI 49628
Tel: 231-352-7201 Fax: 213-352-4033

Dear Elberta Residents and Property Owners,

The Village of Elberta is considering improvements to our sanitary system to ensure reliable, high-quality service for residents. The project includes replacing aging main lines and making several key upgrades to modernize the system.

To qualify for federal loans and grants for these improvements, we are surveying all potential users to determine their household income. This data will be evaluated only to determine if the project qualifies for federal financial assistance which is based on the median household income of the service area.

To assist in determining the household income of potential users in the service area, we request that you complete the attached form and return it in the enclosed envelope.

Your response will be held with the strictest confidence. Great Lakes Community Partnership (GLCAP) will be the third-party handling the survey. GLCAP is part of the Rural Community Assistance Partnership (RCAP) operated by a national network of non-profit organizations working to ensure that small and rural communities throughout the United States have access to safe drinking water, and sanitary wastewater and solid waste disposal.

Your prompt reply and assistance will be appreciated. If you would like to discuss the consideration of improvements with someone, you may contact the village office at 231-352-7201. If you have questions regarding the third-party survey, you may contact Louis Vinson at 517-290-7912 or email lvinson@glcap.org.

We cannot stress enough how **VERY IMPORTANT** it is for you to fill out and return the survey in a timely fashion. We would also like to reassure you that this information is going to a third-party and will be used to calculate an average income for the Village.

Thank you,

Jennifer Wilkins
Village President
